

### **New Launch- OE+ GOETZE PISTON ASSEMBLY** **For CD-100/ HF DELUXE/ DAWN (part no. 1380OE+)**

In continuation to our new launch, we are delighted to launch piston assembly for CD-100/ HF Deluxe/ Dawn with premium features that will surpass the performance and quality of the OE parts. This is why we name it as 'OE+'. The matching ring set is 2222GTX.

Technical Data (Piston 01380OE+)	
Nom. Bore Dia. (mm)	50
Compression height (mm)	19.2
Total height (mm)	44.2
Pin bore Dia. x Length (mm)	13.0x38.6

Special Features (Piston)	Advantages	Benefits
<b>Ceramic Coated Crown &amp; Ring Grooves</b>	Increased thermal load capacity to withstand severe running conditions	Longer piston life
<b>Finish Cast Crown And Valves</b>	Excellent heat & wear resistance at piston crown	Longer piston life
<b>Special Aluminium Silicon Alloy</b>	Lesser expansion, more durable at high temperatures	Longer piston life
<b>Thin Wall Cross-section of skirt</b>	Lesser expansion hence piston can work at lesser clearance.	Longer piston life
<b>Moly Coated Skirt</b>	Provides initial lubrication, prevents scuffing during cold start and corrosion resistance hence better engine performance and longer engine life.	Longer piston life & More power
<b>Solid &amp; tapered Pin Boss</b>	Helps to withstand high pressure, lesser weight	Longer piston life & More power
<b>Thin Top land</b>	Lesser dead volume	More power & lesser emission
<b>Light Weight Design</b>	Reduce inertial losses	More power
<b>Chamfer Below Oil Ring Groove</b>	Help in faster drainage of lube oil	Low Lube oil consumption
<b>Angular Oil Holes on Skirt And Oil Ring Groove</b>	Better oil draining	Low Lube oil consumption
<b>Lug Type Design</b>	Better Piston Stability	Lesser engine noise.

Technical Data (Ring set 2222GTX)			
Groove	Features	Ax. Ht.(mm)	Closed Gap(mm)
1st	Nitrided Steel	1.0	0.10-0.25
2nd	Taper faced, Phos.	1.0	0.10-0.25
3rd	3POR, Chrome Plated Steel	2.0	0.20-0.70
